

EMPOWER YOUR SONIM XP PRO ADVANCE PROCOMM

The AdvanceProComm was designed as a Mobile Hands-Free system with MIL-Specs Specifications to provide a safer use of Robust PTT hand held in both Inter-Connect and Push-to-Talk (PTT) modes.

- Robust Mobile Hands Free Communication Device
- Flame Retardant Materials (cabling, housing and components)
- Operation Temperature -40°C to +85°C
- Design to support Extreme Vibration Environment
- Design to support Crash Hazard Situations
- Designed to support PTT Communication and Full Duplex Calls (Cell phone calls)
- Fast Charging
- Multi Mic. design along with powerful DSP Algorithm for Environmental Noise Suppression
- 10W Load Speaker
- Mini PTT Bottom (1,000,000 Activations) for Ease of Installation close to driver hands .
- Multi Part design for Installation Versatility and Space Efficiency

THE EVOLUTION OF MOBILE ECOSYSTEM

INNOVATIVE ENGINEERING AND MANUFACTURING FOR OVER 40 YEARS
305-623-3939 | Sales@AdvanceTec.com | www.AdvanceTec.com

WHAT'S IN THE BOX:

PTT Button

Cable length: ±198 cm

Power Cable

Cable length: ±199 cm

Cradle

*(with locking mechanism)

Cable length: ±203 cm

Junction Box

Visor Microphone (Visor Mic.)

Cable length: ±295 cm

Speaker

Cable length: ±187 cm

Optional By
AdvanceTec:

Palm Mic

Mobile Foot Pedal

Privacy Handset

Gooseneck Mic

DEVICE SPECIFICATIONS

- Robust Mobile Hands Free Communication Device
- Flame Retardant Materials (cabling, housing and components)
 - Operation Temperature -40°C to +85°C
- Design to support Extreme Vibration Environment
 - Design to support Crash Hazard Situations
- Designed to support PTT Communication and Full Duplex Calls (Cell phone calls)
 - Fast Charging .
- Support Ignition Sense ON/OFF for Charging Safety
 - Support Radio mute Applications
- Support continues operations until communications terminated (Vehicle in OFF position)
 - Alternator Noise and Spike Protections
 - Over Voltage Protection
 - Over Current Protection

- Short Circuit Protection
- Reverse Polarity Protection
- Multi Mic design along with powerful DSP Algorithm for Environmental Noise Suppression
 - 10W Load Speaker
- Mini PTT Bottom (1,000,000 Activations) for Ease of Installation close to driver hands .
- Multi Part design for Installation Versatility and Space Efficiency
 - Support use of Palm Mic
 - Support use of Foot Pedal PTT
 - Support use of Privacy Handset
 - Support use of Gooseneck Mic
- Support Amplified audio up to 25W
